## Your future starts here: the next generation of heating, ventilation and air-conditioning

Take off for tomorrow, today: with our full range of pumps and valves as well as automation and drive solutions, all in a new dimension. A perfectly matched range of high-efficiency components and service offerings that covers all requirements – from family home to airport. Meet the next generation of heating, ventilation and air-conditioning products. Only from the full-liner. Only from KSB.

### See for yourself:

Watch the wide world of heating, ventilation and air-conditioning and experience, up close, the future with KSB.

### Pumps

The KSB portfolio offers the right pump – from large to little – for any requirement. Like the world's most efficient pump set with the new in-line pump, Etaline, the world-beating Etanorm and the new generation of Calio and Calio S circulators.

Etaline

Etanorm

Calio

Calio S

### + Valves

The long-life butterfly and globe valves contribute to KSB's all-round range of products: There're all highly reliable and set the pace when it comes to shutting off and controlling the most varied fluids.

BOAX-SF

BOA-Compact

BOA-H

### + Drives & automation equipment

Perfectly equipped for the future thanks to high-efficiency drives and demand-driven operation: KSB SuPremE®, the most efficient magnet-less pump motor, and the new PumpDrive Eco variable speed system.
